

A Regional Transportation Solution

Section 8 Preliminary Design Update - Photos

March 29, 2016

Some 147 people signed in at the Florida Department of Transportation's March 29, 2016 preliminary design update meeting on Wekiva Parkway Section 8. Among those attending the meeting at the Lakeside United Methodist Church in Sanford were Seminole County Commissioner Lee Constantine, Acting Public Works Director Jean Jreij, Assistant County Engineer Shad Smith, and Bill Wharton and Tony Matthews of Seminole County Planning.

Attendees were able to view the latest exhibit boards, a multi-media presentation, schedules and handouts, and get their questions answered by project staff. Section 8 entails building the parkway interchange connecting SR 429 with I-4 and SR 417, thereby completing the beltway around Central Florida. A number of changes were presented at the public meeting since the last update in 2013, including keeping the current SR 417 ramp connection to International Parkway.

FDOT will be advertising for bids for this design-build project in January 2018. Construction on this section is scheduled to begin in October 2018 and to finish in late 2021.

CONSTRUCTION UPDATES

Welcome to your construction information source for the Wekiva Parkway, the 35-mile toll road that will complete Central Florida's beltway. Here you can find out about construction schedules, lane and road closures, and detours. You can also view the latest community presentations, or request an update for your group. Just click on the appropriate button below.

Construction on the Wekiva Parkway is being done in sections by the Central Florida Expressway Authority (CFX) and the Florida Department of Transportation (FDOT). FDOT began work on the first sections – 4A and 4B – on Feb. 15, 2013. These two design-build sections extend from Mount Plymouth Road (County Road 425) north of Haul Road in Orange County, to State Road 46 east of Camp Challenge Road in Lake County. Work on this section is scheduled to finish in early 2016.

CFX on June 5, 2015 began construction Section 1A, and is slated to start work on Section 1B on August 3, 2015. Work on this portion from near US 441 and Plymouth Somers Road to near Pankin Road is scheduled to finish in spring of 2017.
